## **Natural Remedies selects Baker Dillon Group for PR and social media**

(CLOVIS, Calif.) Jan. 21, 2019 – Natural Remedies, a leading manufacturer and supplier of phytochemical reference standards from Indian medicinal plants, which are being used for quality and research purposes globally has selected Baker Dillon Group to develop publicity and social media campaigns. Natural Remedies has contributed to improving the quality of Indian botanicals with an active participation in preparation of analytical monographs for various international pharmacopoeias.

“Natural Remedies vision to harness nature and apply science for health and happiness has positioned them with an elite list of corporations to be recognized for its outstanding contribution to sustainable business practices,” said Sheldon Baker, chief executive officer for Baker Dillon Group. “We’re proud to represent and organization whose biodiversity impact assessment covered ecosystem services along with initiative that have included diversion, harvest and percolation surface runoff on ground water, and recharge to borewells in its 90-acre vicinity of the factory site. The company’s work has also had a positive impact on birds, reptiles and small mammal population in the surrounding region.”

For more information contact Sheldon Baker at 559.287.7191 or via email at [info@bakerdillon.com](mailto:info@bakerdillon.com).
