Baker Dillon Group selected to develop publicity for Israeli-based Gadot Biochemical Industries

(CLOVIS, Calif.) March 15, 2019 – Gadot Biochemical is one of the leading global manufacturers of citrate-based ingredients and fortifying minerals and phosphates for the food, beverage and nutraceutical industries has called on Baker Dillon Group to develop a series of public relations projects to increase company and product awareness. Gadot has more than 50 years of experience delivering high bioavailable products including tailor made solutions and soluble minerals.

“We’re delighted to have the opportunity to add another global company to our client roster,” said Sheldon Baker, chief executive officer for Baker Dillon Group. “Our brand marketing work now includes work for companies in five different countries who are marketing their products in the North American marketplace.”
